**MobilityTech** is the most important appointment in Italy for those interested in technology for mobility and transport. The event is designed to get the industry and the policy makers on one platform to discuss the importance of urban transport and to share opinions about the future development plans for the major cities.

**MobilityTech** will begin with the screening of *Revenge of the Electric Car*, a documentary by Chris Paine presented in April at the Tribeca Film Festival in New York, and exclusive sneak preview for MobilityTech.

The plenary Opening Session will be dedicated to Urban sustainable development through transport innovations. The event includes many conferences about Regional Railways, Alternative Power Systems, Urban Mass Transportation Systems, European Policies for Sustainable Mobility, Electric Mobility in Europe and in Italy.

**MobilityTech** is supported by Ministero dell'Ambiente (Italy's Ministry of the Environment), Ministero dello Sviluppo Economico (Italy's Ministry of Economic Development), Delegation of the European Commission in Milan, the Region of Lombardy, the Province of Milan, City Council of Milan, EXPO 2015, and Azienda Trasporti Milanesi (Milan's Transport Agency).
